

Denver's Premier Fireplace Showroom

HOME & HEARTH
Outfitters

Colorado's Only All Viking Showroom

HOME and the **RANGE**

When we opened Home and Hearth Outfitters in 1992, we set our goals high. First, we wanted to create a unique and inviting showroom unlike anything else found in Colorado. Second, we wanted to fill the showroom with the best hearth products the world has to offer. Finally, we wanted to create an exciting, enjoyable and rewarding place to work for our many dedicated team members. Today our mission remains clear: work hard to be a leader by providing the best, most unique fireplaces and services to our extraordinary clientele.

HOME
and the
RANGE

This must be the place - we do it all in-house!

- custom and standard projects
- in-home consultation
- takeoffs and proposals
- installation
- service and warranty

And when we opened Home and the Range in 2005, we knew we were again doing something special. We departed both a local and national retail model by focusing on one appliance brand. The brand, thought by the world over - Viking...featuring exclusively Viking appliances, in both designer and professional lines, Home and the Range was the first all Viking showroom in the nation. We are still the only all Viking showroom in Colorado with the largest display in state.

Home and Hearth Outfitters

Since 1992, Home and Hearth Outfitters has been helping to make your home beautiful, comfortable - a joy to live in. We strive to be Colorado's premier source of functional yet fashionable fireplaces, appliances, grills and patio furniture - outfitting your home inside and out.

A fireplace project requires many decisions and Home and Hearth Outfitters simplifies the process with an experienced team of sales and service professionals who will guide you through all aspects of your project. Start to finish, concept to completion.

We have 50 fireplaces on display with 30 of them burning and offer a superior selection of styles and sizes providing the same warmth, color and beauty you want in your home. With the highest quality materials, innovative designs, and unusual features, our brands set the standard for the industry.

Whether building new or replacing your existing fireplace, one of your home's most important appliances, let us help you do it right the first time. With the best brands in the business!

- ◆ The Promenade Shops at Centerra

Home and the Range

The best way to choose the right appliances for your home is to experience them first hand. And nowhere in Colorado will you experience Viking as you will at Home and the Range, Colorado's only all Viking showroom. Featuring over 75 major appliances, a variety of counter top appliances and a live kitchen, we've created a culinary playground. Complete with test drives, demonstrations and cooking classes.

Ranges, refrigerators, dishwashers, wine cellars and more, our boutique setting boasts an exceptional selection of product, side by side. Indoor or outdoor, Home and the Range offers a line of products that extends your kitchen to the pool or patio.

With executive chefs on staff, Viking certified installation, and in-home instruction, Home and the Range strives to entertain, educate and empower you by providing culinary excellence second to none.

Completely culinary...

Viking continues to upgrade the home culinary experience by offering two distinctive lines of ultra-premium appliances for cooking, ventilation, refrigeration and cleanup... the Professional Series and the Designer Series. Not to mention their full line of counter top appliances.

Home and the Range

American homeowners are designing outdoor living areas that mirror their own personalities and lifestyles regardless of age, gender or geography and this phenomenon is ever growing. Designing and furnishing an outdoor room is the second most likely home-remodeling project to do, according to the Propane Education and Research Council. Over the next year, approximately 1.2 million U.S. households will install a fully functional outdoor kitchen.

Grills, ranges, ovens, cookers and specialty side grillers, Home and the Range has it all. As well as warming drawers, ventilation, refrigeration and cabinetry. And, of course, our heavy-duty grills can be built into a custom enclosure, built-in with stainless steel cabinetry, or used on a stainless steel cart.

Today's outdoor kitchen

Viking Range Corporation changed the kitchen 20 years ago, ushering in a new era of big, bold ranges. They've done it again as they lead the way with outdoor kitchen appliances and accessories offering everything you'd expect to find in a kitchen - except the walls.
